

OPTIONAL READING ACTIVITIES K-5

- **ACHIEVE 3000 (Grades 2-5)**

- Students will receive a daily lesson from Achieve 3000. This will be a 5 step lesson with a high-interest article that students are accustomed to completing in class. Achieve 3000 can be accessed by logging into the student's Clever account.

- **READ 20 MINUTES A DAY, EVERY DAY**

- We recommend students read at least 20 minutes daily. Dickson County Schools has developed an optional reading incentive program to encourage students to read daily. You can find the printable card on our website.

- **SMARTY ANTS (Grades K-2)**

- Students are encouraged to continue utilizing the Smarty Ants program to build their phonics skills. We recommend that students complete one activity each day. Smarty Ants can be accessed by logging into the student's Clever account.

- **MYON VIRTUAL LIBRARY (Grades K-5)**

- Students may select books and read through our online virtual library. MyOn may be accessed by logging into the student's Clever account.

- **ACCELERATED READER (Grades 1-5)**

- Students may take Accelerated Reader tests at home during our school closure. Accelerated Reader has a robust library of tests that likely include books your child has at home. Students can also take AR tests on books read in MyOn. The Accelerated Reader website can be accessed by logging in to the student's Clever account, but students will need their AR username and password. For 1st – 3rd grade students, a student's username is his/her State ID Number and the password is first and last initial. If you are unsure of your child's username and password, please contact your school's librarian.
