

# Teachers: Link to your SIS

- 1 Login to Google Classroom.
- 2 In the Classroom Class Settings Page (*the little gear icon in upper right corner of each class's main page*), under **General**, click **Link to SIS Class**
- 3 You will be prompted to choose a class from the drop down menu. You will see a list of classes from your Skyward SMS 2.0 SIS.
- 4 Click 'Link'.

**Note:** Syncing existing Classroom courses to classes in the SIS relies on the email address field for teachers and students. Valid G Suite email addresses are needed for successful syncing, and *they must match the email addresses in the SIS*. Check out the [FAQ](#) for more information.

# Teachers: Sync grades

- 5 Navigate to your Gradebook in Google Classroom.

## Note:

- Grades must be returned to students before they can be synced.
- All grades must have a numerical value to be pushed to the SIS.
- If a student does not exist in your SIS, but does exist in Classroom, that student's grades will not sync with the SIS.

- 6 To sync grades, click the [Sync](#) button in the upper left hand corner.

**Note:** At this time, we do not support syncing grade categories. Only the grades themselves will sync, and will not be categorized automatically after syncing with your information system.
